<b>Activity</b>	Evaluate the feasibility of making surplus publicly owned properties available for conversion to mixed income housing. City: Consider the Alaska Building, the Public Safety Building, and the Dexter Horton Building. County: Consider the Toshiro Kaplan Building, and the Johnson Building. Port of Seattle: Consider Pier 46 and Pier 48.

**Priority** Second**Status:** In-Progress**Sub-Activity** Encourage mixed-use housing by conversion of current publicly owned properties.

**Summary** The Dexter Horton Building is no longer City owned. The Public Safety Building site is currently envisioned to be redeveloped as open space and possibly some commercial/office. There will be additional opportunity, however, to suggest housing in the mix when Council considers the future of this property. The City is preparing to sell the Alaska and Arctic Buildings. The market will probably drive their ongoing uses. Tashiro/Kaplan is currently being redeveloped as artist live/work housing by the Pioneer Square Community Association and Artspace.
